KEY DATES

Friday March 12

- Registrations close

Thursday March 25

- Ladies Luncheon
- Annual General Meeting (Members only)

Friday March 26

- Industry Conference
- Cattlemen's Dinner

Our 2010 conference will focus on emerging opportunities, leadership and succession.

The NTCA Conference is attended by producers, agribusiness and industry leaders from the Northern Territory, Australia and overseas.

With many opportunities and challenges facing our industry the NTCA is a driving force for continual improvement and adaptation. Our conferences continue to challenge, and foster new thinking.

Over its 26 years, the NTCA has been strong, vibrant and vocal in lobbying for the rights of its members, from small family operations to the large corporate companies, and we now represent more than 90% of the NT cattle herd.

Managing more than 44% of the NT landmass, our industry is the largest primary industry sector, successfully managing in excess of two million cattle, turning off over 550,000 animals, across live export and slaughter for local and overseas markets. By area, employment and economic contribution, the pastoral industry is the dominant land-based industry in the NT, building a vibrant and prosperous future for generations to come.
